

CONSTRUCTION NOTIFICATION

Update on Water Authority Relocation of Water Lines Ahead Of Construction of Rio Grande Candelaria Roundabout As of March 5, 2019

NOTE: All construction is weather permitting and is subject to change without notice.

CONTACTS for questions and concerns:

Patti Watson, 505-245-3134 office; 505-269-9691 cell; pattiw@cwastrategic.com

Cristofer Romero, 505-245-3138 office; 505-231-2467 cell; cristoferr@cwastrategic.com

The intersection of Candelaria and Rio Grande is closed through **Friday, April 5**, with additional partial closures of the intersection required through late April to early May. **Please note new barricade changes are coming Thursday, March 7, 2019 (see traffic control below).**

Planned Water Shutoffs

Crews have installed a new 6-inch waterline on the east side of Rio Grande north of Candelaria to the Campbell Ditch. They will schedule a tie-in with a brief water shutoff (1-2 hours) sometime March **6-8** and will notify anyone affected the day before the scheduled water shutoff.

Another planned water shutoff is scheduled from **9 a.m.-3 p.m.** on **Wednesday, March 6** so that a 6-inch valve can be inserted in Candelaria about 20 feet west of Rio Grande. The valve is being inserted so that customers will not be without water during upcoming work to relocate the 12-inch and 24-inch waterlines, scheduled from March 11-April 5, 2018. **Residents on Camino Cepillo NW and on Colonnade Court NW will be affected by this shutoff and should be notified today.**

Traffic Control (Barricade Changes)

In addition to the traffic control already up, the following steps will be taken **Thursday, March 7, 2019** to reduce cut-thru traffic on some neighborhood streets:

- 1) Three Type 3 Barricades and a "Road Closed" sign will be added on Rio Grande north of Headingly to prevent cars traveling southbound on Rio Grande from being able to turn left onto Headingly and to prevent cars traveling east on Headingly from turning north (right) on Rio Grande.

NOTE: Residents on Headingly will be detoured to Manchester to access Candelaria. Access to Headingly Avenue NW, Manchester Drive NW, Manchester Court NW, Manchester Place NW, and Valley Haven Court NW will be via Manchester and Candelaria. (See detour map on back.)

- 2) On Rio Grande south of the Griegos intersection, an additional barricade will be added that includes a road closed sign and a detour sign panel.
- 3) The Variable Message Sign (sign with flashing lights) on Candelaria will be changed to read: "Rio Grande Northbound Closed at Candelaria."
- 4) The City will create a laminated sign that says "Rio Grande Closed North of Headingly" that will be placed on top of the barricade sign currently located on Manchester just north of Candelaria.

The designated detour continues to be 12th Street and Griegos. Crews will usually be working from **7 a.m.-7 p.m. Monday-Friday**, although they may work Saturdays or different hours if needed.

We apologize for the inconvenience and appreciate your patience during this work.

Sign up for traffic updates by emailing pattiw@cwastrategic.com or cristoferr@cwastrategic.com and writing "Rio Grande Candelaria" in the subject line.
